The WITNESS stated that xxxxx owned a small plant located in xxxxx in the xxxxxxx. The WITNESS stated that the plant at this location was a "front" and that liquid waste, which he stated was mostly ferric chloride and sulfuric nitrate, was transported in tanker trucks to this location and eventually dumped into the Delaware River.

The WITNESS further stated that only a select few of xxxxx. drivers knew about this disposal activity, and that any other drivers that picked up liquid waste that was destined by nnnnn. to be dumped into the Delaware River were instructed to drop the full tankers at locations other than the xxxxxx facility.

When asked to identify these other locations, the WITNESS stated that the usual drop off of full tankers was the xxxxx. The WITNESS stated that these tankers were also dropped off at the Chem-Fab location and kept at the Chem-Fab location until one of the "trusted" drivers were able to pick up the tanker at Chem-Fab.

The WITNESS further explained that a "trusted" driver would then pick up the full tanker truck and drive the tanker truck to the facility in xxxxx where the contents of the tanker were dumped into the Delaware River.

When asked what the time period was when these tankers were parked on the Chem-Fab property, the WITNESS stated that drops were made in the mid 1970s to the early 1980s. The WITNESS stated that the primary drop location was the xxxxxx; however the WITNESS stated that full tankers were dropped at Chem-Fab on numerous occasions.

When asked directly if any of the waste was disposed of at the Chem-Fab location the WITNESS stated he had no knowledge.

The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001 Site 20 involving the Chem-Fab, Inc. Site in Bucks County, Pennsylvania (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked and that the interview was voluntary. The WITNESS does not have an attorney in this matter and did not want an attorney present. No other persons were present, and the interview was not tape recorded. This interview was a follow-up interview from the interview conducted on August 8, 2007.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was shown photographs of the Site and these photographs were used throughout the interview as a reference. A copy of these photographs will be forwarded under separate cover. The WITNESS was also shown a diagram of the Site and this diagram is attached to this interview summary.

The WITNESS was advised that drums from IBM were found in the Chem-Fab Building at the Site. The WITNESS was asked if he had any knowledge of what these drums contained or why these drums were at the Site.

The WITNESS stated that he had no knowledge of IBM waste or drums. The WITNESS stated that either Manfred DeRewal, Jr. or William Minthorn picked up waste at the IBM locations and that the WITNESS never picked up waste at IBM.

The WITNESS stated that since our last interview he has recalled two additional companies that he picked up waste from.

Fab or the Delaware River. The WITNESS does not recall how often he picked up drums from this location. He indicated that he was there approximately ten times.

The WITNESS was shown the diagram of the Site and asked to locate where he disposed of liquid waste on the Site. The WITNESS stated that he often parked a tanker truck on the side of the Chem-Fab building and opened the valve to the tanker. The WITNESS stated that the waste would seep into the ground around the underground tank.

The WITNESS stated that Dick Becker was often present when the WITNESS disposed of waste at Chem-Fab.

The WITNESS was asked if he knows that Manfred DeRewal, Sr. purchased Chem-Fab. The WITNESS stated yes and provided the following.

The WITNESS stated that he was told by both Manfred DeRewal, Sr. and Richard Hans Becker ("Dick Becker") that Chem-Fab had been purchased by Manfred DeRewal, Sr. The WITNESS stated that DeRewal, Sr. owned a Maryland Corporation known as Harbucks Industries (exact spelling unknown). The WITNESS stated that DeRewal, Sr. purchased Chem-Fab through this Company.

The WITNESS stated that he recalls the name of one of the Barnhouse truck drivers who disposed of waste at Chem-Fab and provided the following.

The WITNESS stated that he cannot recall the names of any other Barnhouse drivers.

The WITNESS agreed to provide any additional information that he recalls. The WITNESS stated that he recalled the above information after our last interview because the interview refreshed his memory.
